WORK EXPERIENCE

Systems Administrator

Pro-Mold, Inc.

November '08 - Current

Responsibilities include the day-to-day operations of servers and workstations, and end user support. During my time as a co-op and part-time, I was responsible for the deployment of an open source backup solution (no backups prior), deployment of license servers for CAD software. Multiple desktop rebuilds including deployments of Windows 7. Developed extensive knowledge of PC building and components, RAID, and backup solutions.

Computer Science House Systems Administrator

Rochester Institute of Technology: Computer Science House

May '08 – Current

Volunteer position. Responsible for all devices and services operating on the network. Position of leadership within the organization, instructor and mentor roles, for current members and incoming class. (www.csh.rit.edu)

Projects include a PXE boot server, SNMP server, and automated backup server.

Network Communications Assistant

Rochester Institute of Technology: Information & Technology Services

November '07 – '08

Responsible for campus wide telephone and network jack connections, prioritization of service requests, customer support, and proper escalation of tickets, customer training.
